Colleen McLean

## Colleen McLean completes Professional Green Builders Certification

Colleen McLean of Keller Williams Marina/LA recently completed her Professional Green Builders Certification with Build It Green. This is her second professional "green" certification after becoming a Certified Ecobroker last year. McLean works with clients interested in buying, selling, building and upgrading buildings into healthy, sustainable efficient homes and workplaces.

Build It Green is a professional non-profit membership organization whose mission is to promote healthy, energy and resource efficient buildings in California. Supported by a solid foundation of outreach and education, Build It Green connects consumers and building professionals with the tools and technical expertise they need to build quality green buildings.

"As an eco realtor, it is very satisfying to be able to guide and educate those interested on how to find and create healthy homes." Information, Colleen McLean, Keller Williams Realty, (310) 301-5400
